

Vets get day at the lake

Thumbs up to VINE Adult Community Center and volunteers who organized the Lake Day for vets as a gesture of appreciation for veterans and their service to our country.

Area veterans were bused to Lake Jefferson and enjoyed a boat ride and afternoon of relaxation at the home of Mark and Jennifer Frost. The program was made possible as part of a series of veteran social outings for veterans that is funded by a grant from Minnesota Veterans 4 Veterans Trust Fund.

VINE received a \$20,000 grant through the program and plans a series of additional events to host veterans and use the funding for food and transportation.

It's good to see community-based programs for veterans that help them enjoy some of the simple pleasures in life.
